DAFTAR TABEL ........................................................................................................... xiii
DAFTAR SINGKATAN .......................................................................................... xiv
DAFTAR GAMBAR .............................................................................................. xvi
DAFTAR LAMPIRAN ............................................................................................. xvii

I. PENDAHULUAN

1. Latar Belakang ........................................................................................................ 1
2. Permasalahan ....................................................................................................... 5
3. Tujuan Penelitian ................................................................................................. 9
4. Manfaat Penelitian ............................................................................................. 9
5. Novelty ............................................................................................................... 10
6. Ruang Lingkup ................................................................................................... 10

II. TINJAUAN PUSTAKA

1. Sistem Pengendalian Strategis ................................................................. 13
2. Manajemen Risiko ............................................................................................. 14
3. Risiko Kredit (Credit Risk) ............................................................................. 34
4. Kredit Usaha Kecil dan Menengah (UKM) .............................................. 47
5. Audit Internal .................................................................................................... 48
6. Pergeseran Audit Konvensional menuju Audit Berbasis Risiko .................. 54

2.6.1 Cakupan Audit Berbasis Risiko atau Risk Based Audit (RBA) ............. 60
2.6.2 Pengendalian internal menurut Bank Indonesia (BI) ......................... 62
7. Gambaran Umum Bank ................................................................................... 64
8. Penelitian-Penelitian terdahulu .................................................................... 69

III. METODOLOGI PENELITIAN

1. Pendekatan Sistem ............................................................................................. 80
2. Tahapan Penelitian ........................................................................................... 83
3. Metode Pengumpulan Data ............................................................................. 86
4. Metode Pengolahan Data ................................................................................ 92
3.4.1 Metode Perbandingan Eksponensial (MPE) ....................................... 92
3.4.2 Analytical Hierarchy Process (AHP) ................................................... 92
3.4.3 Rule Base Method .................................................................................. 99

IV. HASIL PENELITIAN DAN PEMBAHASAN

1. Faktor Kunci yang Berpengaruh pada Peningkatan Efektivitas Pengendalian Risiko Kredit dan Strategi Kebijakan Pengendalian Risiko Kredit ................................................. 101

4.1. Data-Data Sekunder dan Primer ............................................................ 101
4.1.2. Analisa Situasional dan Formula Permasalahan ............................ 104
4.1.3. Analisa Risiko Kredit ....................................................................... 106
4.1.4. Faktor yang Mempengaruhi Risiko Kredit .................................... 107
4.1.5. Prioritas Tujuan Manajemen terkait Pengendalian Risiko ................................................................. 108
4.1.6. Perumusan Strategi Kebijakan Pengendalian Risiko ................................................................. 112
4.2. Strategi Alternatif untuk Meningkatkan Efektivitas Pengendalian Risiko Kredit ................................. 115
4.2.1. Meningkatkan Kemampuan Analisa Kredit dan Pelaksanaan Stress Testing sebagai Sarana Early Warning System atau Deteksi Dini ................................................................. 115
4.2.2. Menciptakan Lingkungan Pengendalian Risiko Kredit yang Memadai ................................................ 116
4.2.3. Kebijakan dan prosedur Pemberian Kredit yang Lengkap dan Mutakhir ............................................ 117
4.2.4. Memperkuat Fungsi Internal Kontrol Kredit ................................................................. 117
4.2.5. Memfokuskan pada Aktivitas Four Eyes Principles. ................................................................. 117
4.2.6. Meningkatkan Mitigasi Risiko Kredit ................................................................. 118
4.3 Penyempurnaan Sistem Pengendalian Risiko Kredit ................................................................. 118
4.4 Validasi Model Audit Berbasis Risiko ................................................................. 126
4.5 Implikasi Manajerial Pengendalian Risiko Kredit ................................................................. 126
4.5.1. Aspek Organisasi ................................................................. 126
4.5.2. Aspek Sumber Daya Manusia ................................................................. 127
4.5.3. Aspek Operasional Kredit ................................................................. 127
4.5.4. Aspek Sistem dan Teknologi ................................................................. 128

V. KESIMPULAN DAN SARAN

5.1. Kesimpulan ................................................................................................................................. 130
5.2. Saran ............................................................................................................................................ 132
