**ACKNOWLEDGEMENT**

**TABLE OF CONTENT**

**LIST OF FIGURES**

**LIST OF TABLES**

**LIST OF APPENDIX**

**GLOSSARY**

## 1 INTRODUCTION

- Research Background
- Problem Statement
- Research Objectives
- Significant of the Study
- Novelty
- Research Limitation

## 2 LITERATURE REVIEW

- Market Structure
- Measuring Competitiveness
- Global Value Chain
- Internet Innovation in Food Supply Chain Network
- Technology Acceptance
- Five Forces Porter
- Creativity, Innovation, and Performance
- Previous Studies on M-Commerce Adoption
- Indonesia Cocoa
- Indonesian Cocoa and Global Cocoa Value Chain
- Research Model
- Hypothesis Development

## 3 METHOD

- Research Design
- Population
- Sampling Frame and Technique
- Sampling Procedures
- Sampling Size
- Location and Time
- Data Collection
- Mann-Whitney U Test
- Operationalization Variable
- Structural Equation Modelling (SEM)
### TABLE OF CONTENT (Continued)

4 FINDING AND ANALYSIS
- High level analysis on Indonesia cocoa industry 52
- Potential Benefit on Global Value Chain Inclusion 61
- Respondents’ characteristics on technology adoption survey 65
- Descriptive analysis on research variables 66
- Measurement model analysis 66
- Cocoa farmers’ acceptance on mobile broadband technology 72
- Mobile Broadband Adoption and Business Performance 75

5 CONCLUSION AND RECOMMENDATION
- Conclusions 78
- Research Limitations and Recommendations 80

REFERENCES 81

APPENDIX 93

CURRICULUM VITAE 109
LIST OF FIGURES

1. Indonesia broadband penetration in 2013 (ITU and Informa, 2013) — 2
2. Digitalization framework (adopted from Worldbank, 2016) — 5
3. Decreasing trend on cocoa productivity (MoEA RI, 2011) — 5
4. Regional distribution map of cocoa in Indonesia (Dirjenbun, 2013) — 7
5. Broadband coverage and smartphone penetration — 8
6. The Global Competitiveness Index framework — 12
7. Theory of Reasoned Action (Han, 2003) — 19
8. Theory of Planned Behavior (Han, 2003) — 19
9. Conceptual Model of Technology Acceptance (Ma et al., 2004) — 20
10. Original Technology Acceptance Model (Ma et al., 2004) — 20
11. Extended Technology Acceptance Model TAM2 (Chutture, 2009) — 21
12. The Unified Theory of Acceptance and Use of Technology (UTAUT) — 22
13. The Landscape of Technology Acceptance Theory — 23
14. Mobile Commerce Adoption using Five Forces (Swilley, 2007) — 24
15. Combination of TPB and TAM in m-commerce adoption framework (Khalifa, 2008) — 25
16. Research framework – consumer intention on m-commerce adoption using TAM (Yu, 2013) — 26
17. Conceptual framework – revision of TAM on m-commerce adoption (Zhang, 2009) — 28
18. S-O-R model on m-commerce adoption (Li et al., 2012) — 28
19. Combination of TAM, TPB and DOI on m-commerce adoption (Bhatti, 2007) — 29
20. Combination of TAM with Social Influence and Users’ Attitude (Sadia, 2011) — 30
22. Conceptual model of m-commerce adoption in Malaysia (Wei, 2009) — 32
23. Framework of technology adoption at firm level (Snowden, 2006) — 33
25. Cocoa supply chain (Syahrudin, 2012) — 37
27. Conceptual Framework on Technology Adoption and Impact — 40
28. Research model on technology adoption and impact — 41
29. Research stages — 43
30. Structural Equation Modelling (SEM) stages — 49
31. Top four cocoa producer countries (FAO Stat, 2015) — 52
32. Supplier concentration and market share of global cocoa beans (FAO Stat, 2015) — 54
34. RCA Index of Côte d’Ivoire, Indonesia, Ghana, Netherlands and Nigeria, 2007-2011 — 55
35. Relative contribution to the economic of the country (2007-2012) — 56
36. WEF gap model analysis of Indonesia cocoa — 58
LIST OF FIGURES (Continued)

38 Dynamics in the governance of global value chain (Gereffi, 2005) .......................... 62
39 Combination of GVC Governance and Internet Innovation (Gereffi, 2005 and van der Vorst, 2005) ................................................................................. 62
40 Combination of GVC Governance and Internet Innovation (Gereffi, 2005 and van der Vorst, 2005) ................................................................................. 63
41 CFA of exogenous variable in technology acceptance model ................................ 67
42 CFA of endogenous variable in farmer’s adoption model ........................................ 68
43 CFA of variable actual use (Y4) .............................................................................. 69
44 CFA of variable creativity (Y5) .............................................................................. 70
45 CFA of variable innovativeness (Y6) ...................................................................... 71
46 CFA of variable business performance (Y7) .......................................................... 71
47 Standardized Loading Factor (SLF) of the farmer’s adoption model .................. 73
48 T_{calc} of farmer's adoption model ..................................................................... 73
49 Standardized Loading Factor (SLF) of adoption impact model ......................... 76

LIST OF TABLES

1 Dynamics in global value chain governance (Gereffi, 2011) ........................................ 16
2 Operationalization Variable .................................................................................. 46
3 GOF measurements ............................................................................................... 50
4 Global cocoa beans producers market share (FAO Stat, 2015) ............................ 52
5 Global cocoa beans export market share (FAO Stat, 2015) .................................... 53
6 Top Ten Chocolate Producers (ICCO, 2014) .......................................................... 53
7 The Global Competitiveness Index in 2007-2012 (WEF, 2015) ......................... 54
8 WEF gap analysis on Indonesia cocoa sector ......................................................... 57
9 The Non-Parametric Mann-Whitney Test Result .................................................... 59
10 Respondent characteristics .................................................................................... 65
11 Respondents profile who is using smart phone ...................................................... 65
12 Respondents profile who is using smart phone ...................................................... 66
13 Validity and reliability of endogenous variable in farmer's adoption model ........ 68
14 Validity and reliability of exogenous variable in farmer’s adoption model .......... 68
15 Validity and reliability variable actual use (Y4) ...................................................... 69
16 Validity and reliability variable creativity (Y5) ....................................................... 70
17 Validity and reliability variable innovativeness (Y6) .......................................... 71
18 Validity and reliability variable business performance (Y7) ................................. 72
19 Evaluation on path coefficient and T_{calc} of farmer's adoption model ................ 72
20 Fittest criteria on farmer's adoption model ............................................................. 74
21 Evaluation on path coefficient and T_{calc} of adoption impact model ................. 76
22 Fittest criteria on adoption impact model ............................................................... 76
LIST OF APPENDIX

1. Area and Cocoa Production of Smallholder Province and Tree Crop Classification, 2013 97
2. Area and Cocoa Production of Smallholder in East Java and Tree Crop Classification, 2013 98
3. Questionnaire for the experts 99
4. Questionnaire for the farmers 107
