

**Feasibility Analysis of Public Tobacco's Farming.  
A Case Study on 3 Groups of Farmers at Pagerejo Village.  
Suburb Kertek, Wonosobo, Central Java.  
BUDI CAHYADI**

*Tobacco is one of agro comodities that contributes to the income of our country by tax and devisa. And also it comes with endeavor field in any link of the business.*

*The position of public tobacco's farmer is so weak, especially in any case of price access, whether the market price or production facilities prices. The farmer's knowledge in finance management is poor. That causes the situation is worse.*

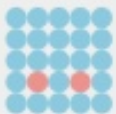

*These researches were analyzed 3 groups of farmers based on cost of production from cultivation public tobacco each hectare, then continued with feasibility analysis by income analysis and break even analysis in order to give further recommendation to the farmers.*

*The result indicated that the most feasible farming is the area more than 1.5 acre with dry sliced tobacco product.*
